

ACR IN ACTION

Insight & updates from the pioneer in portable data logger solutions

ACR
SYSTEMS INC.

Our New SRX Data Loggers is scheduled for release in 2020.

The Next Generation of our Successful SRP Multi-Channel Loggers

Exciting and Unique New Look

Now with easy-to-use USB interface and improved Windows software! The new **SRX** continues to lead the industry in battery life and warranty, providing the ideal logging solution for monitoring applications across a broad range of industries.

We are currently heading into the beta-testing phase with a group of expert users; starting with the SRX3 & SRX7 models and new TRX software.
